

Mihail Grumeza

Technical Executive Advisory Board Member - Audio Engineer

Mihail Grumeza is a next generation audio engineer who started out as a pianist. He was inspired by Ken Lewis, Grammy award winning engineer.

Mihail has mixed for multiple artists including Snoop Dogg, Luniz, Mozzy, The Jacka, Yukmouth, J Stalin, and many more! He has attracted the industry's attention due to positive feedback received from countless clients all over the United States. Mihail brings a comfortable vibe into the studio allowing the talent to feel at ease which, in return, yields a better performance and, over all, better sound. He has extensive experience in sound design and music composition for animated spots. In addition, Mihail engineered recording sessions and produced musical soundtracks for various artists, including jazz and hip-hop artists.

Mihail is a graduate of Cogswell Polytechnical College in San Jose, California. Throughout his career he has worked at The Dragons, The Regime, Media Works, Turing, and Skybox Studio. He is the owner of Vintage Bay Media in San Jose, California.
